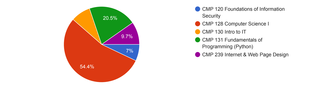
Summary | Question | Individual

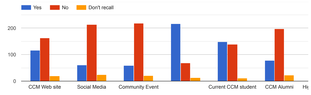
Which course are you enrolled in?

298 responses

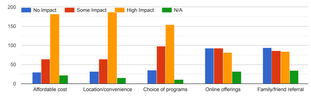


General College Questions

How did you hear about County College of Morris?



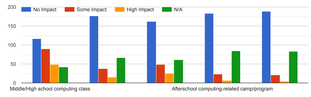
To what extent did the following impact your decision to attend County College of Morris?



Prior to applying to college, did you participate in any of the following events or activities at the County College of Morris and/or with the Department of Information Technologies, if at all?

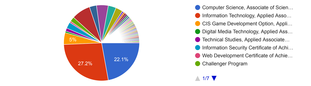
Questions Specific to Computing Class

To what extent did the following activities or experience impact your decision to enroll in an computing course at CCM?



What degree program are you currently enrolled in?

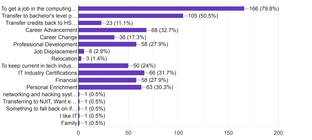
298 responses



Computing Major Questions

What motivated you to seek a computing degree/certificate at CCM? (check all that apply)

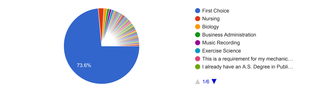
208 responses



Did you receive information about the CCM computing programs from any of the following sources?

Was a computing major/certificate your first choice, or did you change majors from a different CCM program? If you changed majors, indicate what your first major was.

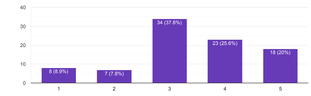
208 responses



Non-Computing Major Questions

On a scale of 1 to 5, with 1 being not at all interested and 5 being extremely interested, how interested are you in taking more computing classes?

90 responses



Please explain your answer to the question above. Why or why not would you be interested in taking another computing class?

90 responses

Professor Stoll is my professor for CMP-128 and so far class seems like it is going to be very informational and fun at the same time!

I have some experience with computers but not a lot. But I feel that it would be interesting to learn more about it.

It is already the future.

I'm interested in science and computers as architects use a lot of computer programs to do work and its interesting to learn and I think its great knowledge to have and can be beneficial to my future education and profession.

I just don't find the class that interesting and it has little to do with the career I wish to have in the future.

i will not, im not tech savy

I believe that if I know enough about computing class I will be able to keep up in our fast changing technology driven world.
